Personal data processing conducted by the home institution in the AAI@EduHr system

Why do we gather and process your personal data?

The University of Zadar is a home institution – the provider of electronic identities in the AAI@EduHr system. Your personal data is stored in our LDAP directory and it serves to enable the use of services accessible through AAI@EduHr, eduGAIN, and eduroam systems, ensuring at the same time a reliable, safe, and unified registration for the purposes of using the services.

Which personal data do we gather and process?

Data that can be stored in our LDAP directory is listed at this address:
<https://www.aaiedu.hr/o-sustavu/imenicke-sheme/shema>

You can access all your personal data that is stored in the LDAP directory through the directory maintenance interface at this address:

<https://personal.unizd.hr/ldap/>

Besides the mentioned data, we also gather data on your electronic identity usage in a way that we record the time, information about the device, and the system where the request came from.

Who do we share your personal data with?

To enable proper access to the services, the necessary level of security and quality of services within the system, we may transfer some of your personal data within the AAI@EduHr system once you join a service. The exact list of data we transfer to a single service can be found at this address:

<https://www.aaiedu.hr/statistika-i-stanje-sustava/web-aplikacije>

How long do we keep your data?

Data about usage of your personal electronic identity is kept for 24 months (in order to ensure the appropriate level of security and the quality of service, as well as to fulfil legal obligations).

Once your e-identity expires, your personal data will be erased from the LDAP directory after 90 days maximum.

What are your rights?

According to the General Act on Data Protection, you have the right to access your personal data that we gather, as well as the right to deletion, restriction of processing, data transfer, and correction of incorrect or changed personal data.
