

Doc. dr. sc. Claudia Kruschel

1. Global CO2 policies and the rule of maritime traffic.
2. Various themes related to the Green Harbors Project - these will be based on original field research in the biomimicry LivingLab tailored to the students needs, interests and backgrounds (Nautika, Brodostrojarstvo, Podvodne Znanosti, Agronomija, other departments, e.g. Archaeologija, Languages etc).
3. - 8. All other five topics from last year are still possible with small adjustments in agreement with the individual students.
