

COURSES OFFERED IN A FOREIGN LANGUAGE IN THE ACADEMIC YEAR  
2019/2020

Department	Department of archaeology		
Description of the courses offered in a foreign language in the academic year 2019/2020			
Name of the course	Nautical archaeology		
Name of the teacher	Asst. Prof. Dr. Irena Radić Rossi		
Number of ECTS credits	4	Semester	<input type="checkbox"/> autumn/winter
			<input checked="" type="checkbox"/> spring/summer
Teaching will be organized as	Lectures	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no	Consultations
			<input checked="" type="checkbox"/> yes <input type="checkbox"/> no
The courses will be organized as	Lectures	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no	Seminars
			<input checked="" type="checkbox"/> yes <input type="checkbox"/> no
			Exercises
			<input type="checkbox"/> yes <input type="checkbox"/> no
Description of the course	<p>The course presents the evolution of the discipline of nautical archaeology, and the research methodology applied to the shipwreck sites. The term <i>archéologie navale</i> (Eng. <i>nautical archaeology</i>) was introduced in the 19<sup>th</sup> century by the French author Augustin Jal. The discipline actually started in France three centuries earlier, with the synthesis of the existing knowledge on Greek and Roman ships and seafaring. With the intensification of the underwater archaeological research during the 1960s and 1970s, shipwrecks became an amazing resource of knowledge on the development of shipbuilding technology, history of seafaring and maritime trade. After a couple of decades, the excitement about underwater sites waned, and the discipline of nautical archaeology refocused on all the available evidence, both on land and underwater. These efforts enhanced the development of nautical archaeology as a respectable scientific discipline, and led to the creation of several research clusters.</p>		
Learning outcomes of the course	<p>Students will:</p> <ul style="list-style-type: none"> <li>- be able to identify, describe and explain various parts of the complex structure of the ship;</li> <li>- know the essential terminology indispensable for the study of old ships;</li> <li>- be able to explain and compare the results of the most significant nautical archaeology projects in the world;</li> <li>- be able to perform the basic fieldwork and laboratory research on the archaeological remains of ships from various periods;</li> <li>- be able to perform the basic comparative studies between the ship finds.</li> </ul>		
The course is offered to	Incoming students who choose the above department as a home department	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no	
	All the incoming students	<input checked="" type="checkbox"/> yes <input type="checkbox"/> no
