**What will you learn:**

The module provides background information on Coastal and Marine Management. The information is focussed on Europe and the Baltic Sea. The aim is to provide up-to-date information on environmental problems, pressures, policies and management. For this purpose, mainly official documents provided by high-ranking international organisations are utilised. The following topics are covered: 1. Coastal Zones & Seas; 2. Coastal Management (ICZM); 3. ICZM Cycle; 4. ICZM Tools & Approaches; 5. EU Maritime Policy; 6. EU Environmental Policy; 7. The Baltic Sea (BS).

**Course activities:**

International group project, site/field visit.

**Soft skills:**

Analytical skills, group/team working, problem solving, presentation, international communication, conflict management.

**Prerequisites:**

None.
