

U Zadru, 8. lipnja 2012.

Drage kolegice, dragi kolege,

Odjel za lingvistiku srdačno Vas poziva na predavanje koje će prof. dr. Mindy Morgan (Department of Anthropology, Michigan State University) na engleskom jeziku održati u srijedu, 13. lipnja 2012. u Dvorani za poslijediplomske studije u zgradi Rektorata Sveučilišta u Zadru, Mihovila Pavlinovića b. b., od 18:00 do 19:30 sati.

Tema i sadržaj predavanja su sljedeći:

**Distinctive Features: Orthographic Representation
and Challenges to Linguistic Authority
within the Fort Belknap Assiniboine Community**

This talk traces the development of a community-based orthography for an Indigenous language program at Fort Belknap College, Montana. Through the course of the program, a number of meetings were held to decide on a standardized orthography; however, this process revealed long-standing issues and insecurities regarding Indigenous language transmission and revitalization. In addition to concerns regarding forced standardization, inaccessibility of various writing systems, and the question of representational power, community members viewed the new writing system as a threat to already existing vernacular literacy practices. Ultimately, the process of orthographic standardization threatened existing ideas about proper uses of language, and violated established ways of accessing and disseminating cultural information that vernacular literacies protected.

Molimo Vas da prosljedite ovu obavijest svim potencijalno zainteresiranim kolegama i kolegicama.

Srdačan pozdrav,

Odjel za lingvistiku
