Course description	In the course students develop their language skills on level C1. They develop their speaking skills needed for interactive communication and through analyses of a variety of audio-visual materials they get acquainted with cultural norms of the English-speaking countries. Also, students practice expressing their personal attitudes and develop critical thinking while discussing different topics. Furthermore, the focus is on the achievement of high standards in reading and academic writing. Vocabulary enrichment includes the study of idioms and collocations with the aim of improvement in written and oral communication. Students analyse individual grammatical structures within the grammatical system, thus gradually developing their grammatical competence and gaining an insight in the functioning of the English language. Students restructure their knowledge doing more complex exercises and translations. They work on basic grammatical structures systematising and classifying them in a more detailed overview. Finally, by developing learning strategies students are trained for independent work.
